

Summarize in your own words, the advantages and disadvantages of owning a television. Your account should not be more than 120 words.

With the invention of televisions, many forms of entertainments have been replaced. Lively programs like television serials and world news, have removed from us the need to read books or papers, to listen to radios or even to watch movies. In fact, during the 1970s, when televisions were first introduced, cinema theatres suffered great losses as many people chose to stay in the comforts of their homes to watch their favorite programs.

Indeed, the television brings the world into our house. Hence, by staying at home and pressing some buttons world happenings are immediately presented before us. Children nowadays develop faster in language, owing to the early exposure to television programs. At such **tender age**, it would be difficult for them to read books or papers. Thus, television programs are a good source of learning for them. Furthermore, pronunciations by the **newscasters**, actors or actresses are usually standardized, hence young children watching these programs will learn the 'right' pronunciations too. Owning a television is also extremely beneficial to working parents who are usually too busy or tired to take their kids out for entertainments. Surrounded by the comforts of their home, the family can have a chance to get together and watch their favorite television programs.

Of course, we should not be too carried away by the advantages of the television and overlook its negative points. Watching television programs takes away our need to read. Why bother to read the papers when we can hear them from the television news reports? Why read books when exciting movies are screened? The lack of reading is unhealthy especially to younger children as they will grow up only with the ability to speak but not write. I have a neighbor whose six-year-old child can say complete sentences like "I like cats," but when told to write out the sentence, is unable to do so. Not only are the writing skills of children affected, their thinking capacities are also handicapped. Television programs remove the need to think. The stories, ideas and facts are woven in the way television planners wanted. Exposure to such opinions and the lack of thinking opportunities will hinder the children's analyzing ability.

Despite the disadvantages of watching television programs, personally, I think that choosing the 'middle path', which is to do selective television viewing and not over **indulging** in the habit should be the best solution to reconcile both the merits and demerits of owning a television.
